

Motor and Electrical Specialist for NOVENCO's R&D department

We are looking for a skilled Motor and Electrical Specialist to join our competent R&D Team, which works on development projects, support and project execution.

NOVENCO Building & Industry A/S is a dynamic and technological-minded, ISO-certified company that focuses on sustainability, sustainable products, and high-tech manufacturing methods to facilitate the green transition. We offer energy-efficient solutions for ventilation and cooling within such diverse areas as industry, agriculture, air handling units, car parks, data centres, wind turbines, tunnels, fire-and-safety systems and much more.

Our headquarters is in Denmark with a subsidiary in the Netherlands, offices in the UK, Germany, India, Singapore and US, as well as a network of worldwide agents and dealers.

The company was founded in 1947. Over the years, we have evolved into a renowned worldwide company and leader in the design, development and manufacture of ventilation products and systems on the technological forefront.

Your primary tasks:

- Motor specialist, providing internal and external motor support
- Implementation and improvement of SOP (standard operating procedures)
- Electrical support for production
- Approval and auditing of motor suppliers
- Responsibility for internal and external development tasks
- Optimizing existing products
- Support for customers and the rest of the organization
- Onsite customer support
- Travel days per year can be expected (10-15)

Your profile and professional background:

- Thorough knowledge of asynchronous and permanent magnet motors
- You are structured and takes pride in completing tasks
- You are outgoing and enjoy working both independently and in teams
- You have an electrical background
- You are proficient in Danish and English in both written and spoken communication, German language would be an advantage

As a person, you should:

- Be responsible, quality-conscious, structured, and committed to completing tasks
- Be a team player
- Be adaptable to change and have a positive attitude toward new tasks
- Have experience working in a busy technical department, which often requires solving tasks quickly

We offer:

- A challenging job in an exciting industry that is constantly evolving, with good professional and personal development opportunities
- A dynamic environment where you are surrounded by many talented colleagues, and a daily atmosphere characterized by good humor and an informal tone
- In addition, we offer a competitive salary based on qualifications, pension, flexible working hours, the possibility of remote work, a staff association, lunch arrangements, health insurance and more

This fall, NOVENCO Building & Industry moves to a brand-new facilities in Naestved, 10-minutes' walk from the Naestved Nord train station.

If you have any questions about the position, please feel free to contact Development Control Team Leader, Stephan Nielsen, at +45 54337838 or via email at STN@novenco-building.com.

Please send your application and CV marked "R&D" to HR department at job@novenco-building.com no later than October 30, 2023.
